# Homework 4
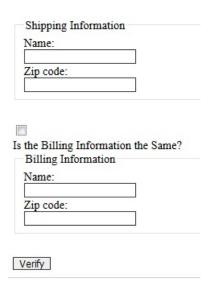

1. Write an html page that contains a button that, when you click on it, it displays a date and time in an alert box. The date and time should be displays as follows: Sunday, April 9, 3:27:3 pm. (30 points)

2. Write an html page. Add the JavaScript code needed to enable auto-complete on this form. Whenever the checkbox is checked, the code should automatically copy the values from Shipping Name and Shipping Zip into the Billing Name and Billing Zip. If the checkbox is unchecked, the Billing Name and Billing Zip should go blank. (50 points)

Shipping Information
Name:

Zip code:

☐
Is the Billing Information the Same?
Billing Information
Name:

Zip code:

Verify

3. Write a javascript function that loads the xml file mydoc.xml (create this xml file by yourself). Make sure that your program works for both Microsoft browser and non-Microsoft browser. (Hint: combine the programs in Page 23 of the Ajax slides.) (20 points)
